Withdrawing a Juror. One particularly amusing incident characterized Congressman Burton's early experience at the bar. For some reason it became necessary to request a continuance in a case in which he was counsel. After Mr. Burton had explained why there should be a continuance the court told him simply to withdraw a juror and the case would be marked continued. For the moment the young attorney was nonplused, but after glancing at the court to satisfy himself that the judge was in earnest he walked over to the jury box, eyed the jurors for an instant and then firmly seized a large, portly German and endeavored with no little effort to drag him out of the jury box.
